SUMMARY

Results-driven Software Developer with hands-on experience building and deploying full-stack web applications using Python, Django, React, PostgreSQL, and cloud deployment technologies. Skilled in RESTful API development, CI/CD automation, Docker-based deployments, and backend system design, with a strong focus on writing scalable and maintainable software. Currently pursuing a B.Tech in Computer Science and Engineering at Swami Vivekananda University (Expected 2028) while expanding expertise in software engineering and AI-powered applications.

SKILLS

Programming Languages: Python, JavaScript, C, C++, Java

Frontend: React.js, Next.js, HTML5, CSS3

Backend: Django, Django REST Framework, FastAPI, Flask, Node.js, Express.js

Databases: PostgreSQL, MySQL, MongoDB, Firebase Firestore

DevOps & Cloud: Docker, GitHub Actions, CI/CD, Nginx, Gunicorn, Linux, GCP, Vercel

Tools: Git, GitHub, Postman, Firebase

Core Concepts: DSA, OOP, DBMS, CN, OS, RESTful APIs, Software Engineering

EDUCATION

Swami Vivekananda University

B.Tech, Computer Science & Engineering

CGPA: 8.89

Kolkata, India

July 2024 – July 2028

PROJECTS

CliqMart E-Commerce Platform | Django, React, Docker, PostgreSQL

GitHub | Live-(in progress)

- Deployed a full-stack Django and React application using Docker, PostgreSQL, and Linode VPS.
- Built an automated CI/CD pipeline with GitHub Actions for seamless deployments and faster release cycles.
- Configured Nginx and Gunicorn for scalable production hosting and reverse proxy management.
- Integrated custom domain, SSL certification (Let's Encrypt), and secure HTTPS communication.
- Managed containerized services, environment configurations, Linux server setup, and deployment automation.

Money Matters | Next.js, Firebase, Gemini API

GitHub | Live

- Built a full-stack financial management platform using Next.js, Firebase, and Gemini API for AI-assisted financial insights.
- Integrated Gemini API to generate personalized financial recommendations and spending insights.
- Designed secure authentication workflows and real-time data storage using Firebase services.
- Implemented responsive user interfaces and deployed the application using Vercel.

CERTIFICATIONS

- NPTEL – Programming for Problem Solving with C (IIT Kharagpur)
- NPTEL – Data Structures and Algorithms (IIT Kanpur)
- NPTEL – Data Analytics with Python
- Advanced Diploma in Information Technology (BTPYC)
